

Lars Juhl Jensen

Lars Juhl Jensen studied chemistry at the Technical University of Denmark, from where he received his Ph.D. in bioinformatics in 2002 for his work on non-homology-based protein-function prediction. During this time, he also developed methods for the visualization of microbial genomes, pattern recognition in promoter regions and microarray analysis. He is now a staff scientist at the European Molecular Biology Laboratory (EMBL) in Heidelberg, Germany, where he works on literature mining, integration of large-scale experimental data and analysis of biological interaction networks.

The European Molecular Biology Laboratory

The European Molecular Biology Laboratory is a non-profit organisation and a basic research institute funded by public research monies from 18 member states. Research at EMBL is conducted by approximately 80 independent groups covering the spectrum of molecular biology. The Laboratory has five units: the main Laboratory in Heidelberg, and Outstations in Hinxton [the European Bioinformatics Institute], Grenoble, Hamburg, and Monterotondo near Rome.
